

FTCAP starting capacitor 140 μ F / 320 V

Manufacturer:	FTCAP Fischer & Tausche
Type:	14132051,8118
Product no.:	140EL320
Weight:	0.400

■ Details

Starting capacitor for starting heavy-starting electric motors, e.g. for floor sanders, compressors, mills.

■ Important

Starting capacitors are not operating capacitors. They must be disconnected from the mains after reaching the speed of the motor.

■ Construction

Cylindrical aluminum double housing with lateral 3-wire connection cable approx. 250 mm long, without base screw.

■ Operating mode

Intermittent operation AB 1.7% Duration 3 min. The duty cycle is a maximum of 1,7% of the total working cycle and corresponds to 20 evenly distributed 3-second intervals over one hour.

■ Technical values according to EN 60252-1 (VDE560-8)

Capacity	140 μ F \pm 10% nominal value
Nominal voltage	320V~ 50/60Hz
Operating mode	Intermittent operation AB
Operating temperature	-10° up to +60°C
Protection class	IP 54
Connection	Cable 250 mm 3G1,5
Dimensions (\emptyset x length)	52 x 118 mm
