

## FTCAP starting capacitor 60 µF / 320 V

Manufacturer:	FTCAP Fischer & Tausche
Type:	60032036,8085
Product no.:	60EL320
Weight:	0.300

### ■ Details

starting capacitor for starting heavy-starting motors, e.g. Of compressors.

### ■ Important

Starting capacitors are not operating capacitors. They must be disconnected from the mains after reaching the speed of the motor.

### ■ Construction

Cylindrical aluminum double housing with lateral 3-wire connection cable approx. 250 mm long, without base screw.

### ■ Operating mode

Intermittent operation AB 1.7% Duration 3 min. The duty cycle is a maximum of 1,7% of the total working cycle and corresponds to 20 evenly distributed 3-second intervals over one hour.

### ■ Technical values according to EN 60252-1 (VDE560-8)

<b>Capacity</b>	60 µF ±10% nominal value
<b>Nominal voltage</b>	320V~ 50/60Hz
<b>Operating mode</b>	Intermittent operation AB
<b>Operating temperature</b>	-10° up to +60°C
<b>Protection class</b>	IP 54
<b>Connection</b>	Cable 250 mm 3G1,5
<b>Dimensions (Ø x length)</b>	37 x 85 mm
