

A.C.-insert switch Kedu KJD20-2 (replacement for DKLD DZ04)

| | |
|---------------|---------|
| Manufacturer: | Kedu |
| Type: | KJD20-2 |
| Product no.: | KJD20 |
| Weight: | 0.100 |

■ Details

2-pole insert switch with zero voltage release for machines and stationary power tools

■ Replacement for other switch

The switch may be suitable as a replacement for the following switches:

- Kedu KJD19
- Kedu KJD20
- KJD 6, manufacturer: Gaoyou Electrical Plastic Factory and more
- DKLD DZ04, manufacturer: Yue Qing Dongke Electron
- CK-1 manufacturer unknown, imprint partly "Switches from China"

Note the installation dimensions and connections, because the indications of chinese switches are rarely unique. Usually the imprint only shows the indication of the entire switch series, which have several variants.

■ Specifications

| | |
|----------------------------------------|-------------------------------------------|
| Voltage | 250V~ |
| Rated frequency | 50Hz |
| Operating mode | Continuous operation |
| Operating current I_e | 10(8) A |
| Pole number | 2 (N/O contacts) |
| Type of actuation | Mechanically on/off |
| Electrical service life | 50.000 switching cycles |
| Ambient temperature | -25°C . +60°C |
| Protection class | Front side IP54 |
| Mounting position | Any |
| Housing material | Plastic PA |
| Installation | Snap-on frame (Ausschnitt 43.5 x 27,3 mm) |
| Connection | Flat plug 4,8 x 0,8 mm |
| Corresponds to | EN61058, DIN VDE 0630 |
| Mark of conformity | TÜV |
